

PRIVATE MORTGAGE INSURANCE REMOVAL REQUEST FORM

How is this form used?

It's used to request removal of Private Mortgage Insurance (PMI) from your mortgage loan.

A new valuation will be required* to confirm the value of the property. This can be true even when removing PMI based on the original value of the property.

What requirements must be met to initiate cancellation of PMI?

- The loan must be current on mortgage payments.
- The loan must have a good payment history. A good payment history means:
 - No payments 30 days or more past due in the last 12 months, and
 - No payments 60 days or more past due in the last 24 months.
- The current property value must be at least equal to its original value.
- The loan must meet the applicable loan to value ratio (LTV) provided in the PMI Cancellation Matrix on Page 2.
- There must not be any subordinate lien(s) attached to the property.
- If substantial improvements have been made to the property since the loan closed, then evidence of these improvements is required. This includes a list of improvements, date(s) of completion, and cost(s) of the project(s) (see the FAQs on page 3 for more information).

How do I start the process? It's simple! Follow the three steps below.

Step 1. Read this form in its entirety.

Step 2. Complete and sign below. Your signature indicates that:

- You fully understand the PMI removal requirements described on page 2 and have reviewed the 'Frequently Asked Questions' on pages 3 and 4.
- You consent for RoundPoint to order a new valuation. A new valuation is either an appraisal or Broker Price Opinion (BPO).
 - Do not order your own valuation. It must be ordered by RoundPoint.
- You understand the type of valuation required is based on the owner of your loan and is not chosen at the discretion of the homeowner.
 - If the owner of your loan requires an appraisal, then an appraisal will be ordered.
 - If the owner of your loan requires a BPO, then a BPO will be ordered.
- You consent to pay a non-refundable property valuation fee (appraisal or BPO) regardless of the returned value of the property. The cost of valuations can vary depending on market conditions:
 - The cost of an appraisal is generally \$450, but can cost up to \$750 or more**
 - The cost of a BPO is generally \$190, but can cost up to \$250 or more**
 - The cost of the valuation will be added to the monthly bill after the results are received
- You confirm there are no subordinate liens attached to your property.

Step 3. Complete this form and send back to us! If applicable, include a list of all substantial improvements made to the property since loan closing. The list should include date(s) and cost(s) of completion. **Please note:** If substantial improvements have been made, and no list is provided, the higher LTV will be used to determine PMI removal. See PMI Matrix on page 2.

*A new valuation is not required when the most recent servicer-ordered valuation is less than 120 days old for the purpose of PMI removal.

**We will contact you beforehand in the event the cost of a valuation exceeds the thresholds defined in this form.

First and Last Name: _____ Loan Number: _____

Property Address: _____
Street, City, State and Zip Code

Signature: _____ Date: _____

PRIVATE MORTGAGE INSURANCE REMOVAL REQUEST FORM

Where do I send the form and what should I do if I have questions?

If you have questions or concerns, please call us at 877-426-8805 to speak with one of our friendly customer service representatives. Submit the fully completed form to us by:

Email: ServicingHelp@RoundPointMortgage.com
Fax: 877-776-1112

Mailing Address: RoundPoint Mortgage Servicing LLC
P.O. Box 19409
Charlotte, NC 28219-9409

When and how will I know if PMI was removed?

We value your time and will diligently review your request. The evaluation process may take up to four weeks to complete. We will notify you by mail once the valuation (appraisal/BPO) is received and the evaluation is completed.

| PMI CANCELLATION MATRIX | | | | |
|-----------------------------------|---|--|---|---------------------|
| Age of Loan | LTV Calculation Method | Loan Type | LTV Requirements | Valuation Required? |
| Any point in the life of the loan | LTV based on Original Value | One Unit Principal Residence or Second Home | 80% | Yes |
| | | Two to Four Unit Principal Residence or One to Four Unit Investment Properties | Fannie Mae: 70% Freddie Mac: 65% Other: 70% | |
| Less than 24 months | LTV based on Current Value Note: requires substantial improvements made to the property since closing | One Unit Principal Residence or Second Home | 80% | Yes |
| | | Two to Four Unit Principal Residence or One to Four Unit Investment Properties | Fannie Mae: Not Allowed For Removal Freddie Mac: 65% | |
| 24 months - 60 months | LTV based on Current Value when substantial improvements have not been made to the property since closing | Single-Family Principal Residence or Second Home | 75% | Yes |
| | | Two to Four Unit Principal Residence or One to Four Unit Investment Properties | Fannie Mae: 70% Freddie Mac: 65% Other: 70% | |
| | LTV based on Current Value when substantial improvements have been made to the property since closing | Single-Family Principal Residence or Second Home | 80% | |
| | | Two to Four Unit Principal Residence or One to Four Unit Investment Properties | Fannie Mae: 70% Freddie Mac: 65% Other: 70% | |
| 61 months + | LTV based on Current Value meets the LTV requirements | LTV based on Current Value meets the LTV requirements | 80% | Yes |
| | | Two to Four Unit Principal Residence or One to Four Unit Investment Properties | Fannie Mae: 70% Freddie Mac: 65% Other: 70% | |

Adjustable Rate Mortgage: The current amortization schedule following the most recent rate change is used for purposes of PMI removal.

Balloon/Reset Mortgage: The current amortization schedule following the most recent rate change is used for purposes of PMI removal.

Loan Modifications: The amortization schedule of the modified mortgage loan and the property value at the time of the mortgage loan modification, are used for purposes of PMI removal

PRIVATE MORTGAGE INSURANCE REMOVAL REQUEST FORM

What are MIP and PMI? How do I know which one I have?

They are the two types of mortgage insurance. Mortgage Insurance protects lenders against financial loss when a default occurs on a mortgage loan. MIP applies to Federal Housing Administration (FHA) insured loans, which is a type of government program. PMI applies to loans that are not insured under a government program.

When can I request PMI be canceled?

Generally, for loans closed on or after July 29, 1999, as a single-family primary residence, homeowners have the right to request the PMI be canceled on or after either of these dates:

1. The date the principal balance of the loan is first scheduled to reach 80% of the original value of the property based solely on the initial amortization schedule, or
2. The date the principal balance actually reaches 80% of the original value of the property based on actual payments made.

When will PMI be automatically terminated?

For loans closed on or after July 29, 1999 as a single-family primary residence and the loan payments are current, PMI will automatically terminate on the date the principal balance of the loan is first scheduled to reach 78% of the original value of the property based solely on the initial amortization schedule. If the loan payments are not current as of that date, PMI will automatically terminate the month after the payments are brought current. In any event, PMI will not be required beyond the date that is the midpoint of the amortization period for the loan if the payments are current as of that date.

For Multi-Unit and Investment Properties: Freddie Mac insured loans are not eligible for auto termination. Fannie Mae insured loans must meet the midpoint of the loan based on the original amortization schedule.

What if my loan closed before July 29, 1999, is not a single-family primary residence, or is a second home?

The conditions for canceling mortgage insurance for mortgages closed before July 29, 1999 are not provided for under federal law and may be changed at the lender's discretion (unless otherwise restricted by state law).

How do I find the original value of my property or LTV?

The original value is either the purchase price or the appraised value of your property at closing, whichever is less. If the loan is a refinance, then the original value is the appraised value used to refinance the loan. To calculate the original loan to value (OLTV), divide the unpaid principal balance (including any deferred principal balance) of the loan by the property's original value.

What is the difference between Original Loan to Value (OLTV) and Current Loan to Value (CLTV) calculation methods?

The Loan to Value ratio (LTV) is the relationship between the loan's Unpaid Principal Balance (including any deferred amounts) and the property's expected price if sold. Because home prices fluctuate, there are two approaches to calculating LTV. The Original Loan to Value (OLTV) method compares the current Unpaid Principal Balance (UPB) with the property's value at closing. The Current Loan to Value (CLTV) method compares the current UPB with the property's expected price if sold in the near future. As a result, the CLTV method is the only method that takes substantial improvements into consideration.

What is considered a substantial improvement?

A substantial improvement increases value, improves marketability, and/or extends the useful life of the property. Substantial improvements include renovations, finishing a basement; addition of square footage; and/or additional feature(s), garage, deck, pool, sprinklers. Improvements or repairs made to maintain functionality or improve cosmetics are not considered substantial. Some improvements are considered substantial by Freddie Mac but not Fannie Mae.

Why can't I use a past appraisal?

Appraisals consider the value of a property at a fixed point in time. Housing prices fluctuate so an updated valuation is required to confirm the value of the property. Servicer-ordered appraisals are performed at arm's length, meaning the appraiser is not influenced in any way by either the servicer or homeowner. This practice ensures the most objective and precise measurement of the property's value. The valuation must be ordered by RoundPoint, and RoundPoint cannot reimburse homeowners for ordering their own valuation.

What if I miss my appointment?

If you miss your valuation appointment, please contact the appraiser or broker to reschedule the appointment.

Will a copy of the BPO or Appraisal be provided?

A copy of the BPO or Appraisal will be provided if your PMI removal request is denied, along with the reason for the denial. If your PMI removal request is approved, and you would like to receive a copy, please reach out via email to ServicingHelp@RoundPointMortgage.com, or contact us by phone 877-426-8805 to obtain a copy.
