How can I begin this convenient service?

The most simple and convenient way to begin ACH is to log in to your online account. If you do not have an online account, you can sign up on our website at www.roundpointmortgage.com. You can also fill out this application and submit it via email to ServicingHelp@RoundPointMortgage.com, or send it in via fax, or mail. Please provide a voided blank check or a savings account deposit slip with the application. The application and your voided check or deposit slip gives RoundPoint the accurate information needed to begin the ACH service. The confirmation letter identifies the date of the first scheduled ACH draft payment. Please continue to make the normal mortgage payments until you receive your confirmation letter.

Why should I sign up for the ACH service?

ACH is a free, convenient, and secure method for paying your mortgage. You no longer have to remember to send in a check each month, and you'll have peace of mind knowing your monthly mortgage payment was made automatically, on time, and through a secure method.

How does the program work?

Once you sign up with ACH, your mortgage payment will automatically deduct from your designated checking or savings account each month. RoundPoint will send notification to your bank to transfer the exact amount of the mortgage payment. A record of the transaction will be included each month on your bank statement and your monthly billing statement from RoundPoint. If your payment increases, your ACH draft will automatically increase.

Does ACH cost anything?

There are no charges to setup or use our ACH service. Please be advised, however, that in the event you do not have sufficient funds in your account to cover the monthly payment amount on the transfer date, your bank may charge you an Overdraft/Insufficient Funds Fee. You should contact your bank to determine if this fee applies and the actual amount incurred. RoundPoint will not be held liable or responsible for the payment of any overdraft charged or other bank fees as a result of an attempted transfer from your account containing insufficient funds. RoundPoint will assess a fee for insufficient funds. Fees vary by state. You will remain liable and responsible for any monthly payments which remain unpaid as a result of an unsuccessful attempted transfer from your account containing insufficient funds.

Can I still make additional principal payments or escrow deposits?

You can make additional principal payments with your monthly ACH service but you cannot make additional escrow payments. To make ongoing additional principal payments, log in to your online account and select "Payments." From there, select "Modify Autopay," and follow the instructions on the screen. Finally, select that you have agreed to the terms and conditions and hit submit. Your payment will not be complete until you select "Authorize Enrollment."

To make a one-time principal payment, or one-time escrow deposit, log in to your online account and select "Payments." From there, select either "Make a Payment" or "Make an Additional Payment," and follow the instructions on the screen. Finally, select that you have agreed to the terms and conditions and select "Authorize Payment." Your payment will not be complete until you select "Authorize Payment."

You may also make an additional principal payments or an escrow deposit by calling us or mailing in additional payment. If you choose to mail it in, you must designate the additional escrow amount on the coupon that comes with your billing statement, or use the coupon Escrow sends as part of their escrow analysis/payment change notification.
